## WHO WE ARE

# A studio with a factory.

FABMOUNT combines a working architectural studio with a modular manufacturing capability — a rare pairing in our category. We deliver rapid architectural drawings for residential, office and commercial projects, and we ship turnkey prefab hospitality pods to operators in any market.

Founded by UK-trained architects with 15+ years of experience across hospitality, residential and infrastructure, FABMOUNT is built for developers who need premium output, transparent pricing and international delivery.

## WHAT WE DO

## Two products. One studio standard.

### 01 · Express Architectural Services

From \$1 per sqft of total built-up area. Concept design, floor plans, 3D views and approval-ready drawings — delivered within 72 hours of a confirmed brief.

### 02 · Prefab Modular Pods

Type B from \$15,000 · Type A from \$18,000. Bedroom, bathroom, entrance and panoramic glass wall. Plug-and-play utilities. Worldwide shipping included.

# Built on credentials, proven on delivery.

---

**15+ years experience**

Across residential, hospitality and commercial sectors.

**UK architecture education**

Internationally trained design leadership.

**Hospitality & infrastructure expertise**

Resorts, boutique hotels, eco-stays and institutional projects.

**Export-ready modular system**

Pods ship in two manageable modules to any market.

**Global delivery capability**

Pricing and logistics engineered for worldwide shipping.

**Professional architectural team**

In-house drawings, in-house production oversight.

# From inquiry to installed in six steps.

|                          |                                                                     |
|--------------------------|---------------------------------------------------------------------|
| <b>01 • Inquiry</b>      | You share the brief, site, intent. We respond within 24 hours.      |
| <b>02 • Design</b>       | Architectural drawings and pod configuration delivered in 72 hours. |
| <b>03 • Approval</b>     | You sign off scope, finishes and price. Secure PayPal payment.      |
| <b>04 • Production</b>   | Pods built in our facility. Architectural drawings finalised.       |
| <b>05 • Shipping</b>     | Two-module export packaging. Worldwide freight included.            |
| <b>06 • Installation</b> | Plug-and-play assembly on site, days not months.                    |

# Engineered to international standards.

FABMOUNT pods and architectural drawings are produced with international buyers in mind. We adapt structural, electrical and life-safety detailing to the destination country and provide documentation supporting customs, site approvals and operator handover.

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| Structural engineering | Designed and certified to international load and wind criteria; site-specific calculations on request. |
| Electrical & plumbing  | Configurable to destination voltage, frequency and plumbing standards (UK, EU, GCC, US, AU).           |
| Fire safety            | Non-combustible insulation options, sprinkler-ready packages and fire-rated assemblies available.      |
| Insulation & thermal   | High-performance insulation specs tuned for tropical, temperate or cold climates.                      |
| Country adaptation     | Drawings re-issued to match local code, language and submission format.                                |
| CE readiness           | Component sourcing and documentation paths aligned with CE / equivalent regimes where applicable.      |

BUILT FOR

# Hospitality, eco-resorts, visionary owners.

---

Eco-resorts · Glamping operators · Boutique hotels · Wellness retreats · Private estates · Short-stay rentals · Site offices & remote infrastructure
